In 2013, Cosmic Sexuality first began our in-person offerings through local meet ups in New York City called Sex In The City, from there Cosmic Sexuality was officially born as a larger framework for others to access. Cosmic Sexuality published its first book in 2016, we then launched our certification program which is now in 32 countries around the world.

Through the certification program the in-person immersive retreats were brought forth. These began as intimate experiences at our Urban Monastery in Brooklyn, NY where the founders of Cosmic Sexuality worked intimately and 1-on-1 with individuals devoted to their spiritual path. With the request to make the in-person work more accessible, larger retreat experiences were executed and mastered where guests came from around the world to work directly with the founders of Cosmic Sexuality and our certified instructors.

The Cosmic Founders Retreat experience is designed for individuals who are devoted to their spiritual and sexual path and ready for a deep level of transformation.

This program is for individuals new to cosmic sexuality, current or previous students of cosmic sexuality looking to go deeper, spiritual leaders/guides, and coaches. We've spent the last six years developing our in-person program and are now excited to offer in June 2023.
